Cultural Competency Assessment

Thank you for taking time to complete this questionnaire! We are interested in learning about how your coalition engages culturally diverse groups within your community.

Culture can mean a variety of things and we encourage you to think about race and beyond when considering the cultural groups in your community. For example, a culturally diverse group may be a religious group, an age group, a group of people of similar socioeconomic status, or a group of people with similar interests, goals or objectives.

Your thoughts and opinions will help identify needs, barriers, challenges, and strengths of your coalition in engaging culturally diverse communities. This survey is voluntary and confidential. Your answers will be combined with the responses of the whole coalition. There are no right or wrong answers.
